

# Benjamin Kugler

## Senior Frontend Engineer

Rivadavia 843, Corrientes, Argentina · +54 379 460 6797 · [benjamin.kugler1996@gmail.com](mailto:benjamin.kugler1996@gmail.com) · [LinkedIn](#) · [GitHub](#)

---

## SUMMARY

---

Senior Frontend Engineer with 7+ years building scalable, high-performance web applications in React, Next.js, and TypeScript. Specialized in micro-frontend architectures, component-library migrations, and real-time, data-rich interfaces for enterprise and AI-driven products. I own the full frontend lifecycle — architecture, state management, performance, and observability — while collaborating closely across distributed, multi-timezone teams.

## EXPERIENCE

---

### Improving South America

Sep 2019 – Present

*Software consulting firm delivering custom AI, data, and cloud solutions · Distributed teams*

- Progressed from Front-End Developer to Senior Full Stack Engineer, taking ownership of frontend, backend, cloud architecture, and end-to-end system design.
- Acted as a technical reference across multiple international projects — driving architectural decisions, mentoring teammates, and safeguarding delivery quality.
- Conducted technical interviews for Fullstack (Java/Spring Boot and React) candidates across the region.

### ICE Mortgage Technologies

2019 – Present

*Enterprise lending platform · React / TypeScript*

- Architected and maintained a micro-frontend platform in React + TypeScript enabling loan officers to process borrower financial documents and generate analytical reports.
- Led the migration of legacy StencilJS web components to React, unifying the component model and improving maintainability and developer velocity across teams.
- Integrated LogRocket session replay across a micro-frontend / iframe architecture to surface frontend errors and accelerate debugging of production issues.
- Built reusable, accessible UI components and standardized state management with React Query and Redux, shared across multiple internal applications.
- Aligned API contracts and release cycles with distributed teams across the U.S., India, and Poland.

### Thirdwishp

Sep 2025 – Present

*AI-powered analytics product · Next.js*

- Built a real-time Next.js frontend for an AI assistant, supporting conversational workflows, interactive data visualizations, and structured user feedback.
- Implemented streaming UI patterns and responsive, data-dense layouts for natural-language querying over large datasets.

### MediaPro (Grup Mediapro)

Aug 2025 – Present

*Executive analytics dashboards*

- Built an interactive executive (CEO) dashboard as a standalone HTML/JS deliverable, translating financial and usage data into clear, decision-ready visualizations.
- Designed reporting interfaces over Microsoft 365 usage data to highlight inactive users and underutilized licenses for cost optimization.

## TECH STACK

---

**Core:** React, Next.js, TypeScript, JavaScript (ES6+)

**State & Data:** Redux, React Query, REST APIs

**Styling & UI:** Tailwind CSS, HTML5, CSS3, responsive & accessible design

**Architecture:** Micro-frontend architecture, component libraries, StencilJS-to-React migrations

**Observability:** LogRocket session replay, Splunk dashboards

**Backend (working knowledge):** Spring Boot, FastAPI, PostgreSQL  
**DevOps:** Docker, CI/CD, GitHub Actions, Bitbucket Pipelines, Azure DevOps

## SELECTED PERSONAL PROJECTS

---

**Saint Patrick College — student trip tracking PWA** — real-time progressive web app for tracking school trips.

*Next.js, PWA*

**Ticketera (Corrientes, AR)** — event ticketing platform for Corrientes, Argentina, with online payments.

*Next.js 16, Supabase, Vercel, Mercado Pago*

## EDUCATION

---

**La Salle — Universitat Ramon Llull, Barcelona, Spain**

2023

*Master's Degree in Software Development and Architectures*

**UTN FRRE, Chaco, Argentina**

2014 – 2021

*Information Systems Engineering*

## CERTIFICATIONS

---

- AWS Certified Cloud Practitioner
